Course Overview:

THIS COURSE IS A MUST HAVE FOR ALL FIREFIGHTERS! Rapid intervention begins with PREVENTION. This course teaches rapid intervention skills in 3 stages: Firefighter Survival, Firefighter Rescue, and Rapid Intervention Team Operations.

Day one is spent building prevention skills into each firefighter (and preparing them to be members of a RIT). Skills include: SCBA emergencies, MAYDAY, disorientation emergencies and emergency escape techniques.

Day two is spent learning the individual techniques and skills involved in firefighter rescue. Skills include: Emergency air supply, searching for a firefighter, assessing and packaging a firefighter, drags and carries, ladder rescues, rescues from entanglements, breaches, below grade and restricted areas.

Day three details the positions, assignments, and fireground operations (proactive tasks, tool use, staging, and more) of a rapid intervention team. Skills include: performing as RIT officer, navigation/air supply, search and packaging firefighter assigned to a RIT. Day three scenarios combine all skills learned, under realistic fireground conditions, while operating as a RIT in response to a fireground MAYDAY.

This intense three-day course provides students with the solid foundation and skill-set needed to work as a member of a rapid intervention team on the fireground.

Seating is Limited. PLEASE USE THE REGISTRATION FORM ATTACHED. MAKE COPIES AS NEEDED

Any questions please contact, Capt. Scott Feather at 538-6849(office) or 635-1476 (cell)
